## ***ID cards***

You will receive a CareSource Just4Me™ ID card. It is good for each member of your family who has joined the Plan. Be sure to show your card each time you go to the doctor, hospital, urgent care center and pharmacy.

You should also have your ID card ready when you call Member Services. We will need the Member ID number listed on your card. This will help us serve you faster.

## ***Where to get care***

In order to have your health care services covered by CareSource Just4Me™, you must get them from a Network Provider. The only exceptions are:

- In cases of emergency; or
- If you need medically necessary, covered urgent care services when traveling out of our service area

You can find the most current list of Network Providers on our website. Go to [CareSource.com](http://CareSource.com) and choose “Find a Doctor/Provider” under the “Quick Links.” Then, select the State where you live and your health care plan.

### **YOUR PRIMARY CARE PROVIDER (PCP)**

You can choose a PCP who is a Network Provider. Your PCP will work with you to direct your health care. He or she will treat you for most of your routine health care needs.

Going to the same PCP each time you need care will help your PCP get to know you and your needs. The more familiar your PCP is with you and your medical history, the better your PCP will be able to treat you.

If needed, your PCP will help you decide if you need to see other doctors (specialists) or admit you to the hospital. However, you are not required by the Plan to get a referral from your PCP before you see many types of specialists.

Do you need help choosing a PCP, specialists, or any other services? Just call our Member Services Department at **1-855-202-0622**.

*Typically, in order to have your health care services paid for by CareSource Just4Me™, you must get services from a Network Provider. **See your Evidence of Coverage for details.***

## WHEN YOU ARE OUTSIDE OF OUR SERVICE AREA

You may get sick or hurt while traveling outside of our service area. If this happens and you are within the United States, then you can get medically necessary Covered Services from a provider not in our network.

Prior to seeking urgent care, we encourage you to call your PCP for guidance, but this is not required. You should get urgent care from the nearest and most appropriate health care provider. Emergency care is covered both in and out of our service area, within the United States. Please see your Evidence of Coverage (EOC) for more information.

*The counties in our service area are on our website. Just go to **CareSource.com/Just4Me**. Click on “Enroll” to see them.*

If you receive emergency care from a provider who is not a Network Provider, or urgent care services outside the service area, then you will need to submit the bill you receive to CareSource with a claim form. You may obtain a claim form through **CareSource.com/Just4Me** or by calling Member Services at **1-855-202-0622** (TTY/TDD for the hearing impaired: 1-800-982-8771 or 711).

## EMERGENCY SERVICES

Emergency services are services for a medical problem that you think is so serious that it must be treated right away by a doctor. We cover care for emergencies both in and out of the county where you live. Some examples of when emergency services are needed include:

- Miscarriage/pregnancy with vaginal bleeding
- Severe chest pain
- Shortness of breath
- Loss of consciousness
- Seizures/convulsions
- Uncontrolled bleeding
- Severe vomiting
- Rape
- Major burns

You do not have to contact CareSource for an okay before you get emergency services. If you have an emergency, then call 911 or go to the nearest emergency room (ER) or other appropriate setting. If you are not sure whether you need to go to the emergency room, then call your primary care provider or the CareSource 24-hour nurse advice line at **1-866-206-0701** (TTY: 1-800-982-8771 or 711). Your PCP or the CareSource 24-hour nurse advice line staff can talk to you about your medical problem and give you advice on what you should do.

Remember, if you need emergency services:

- Go to the nearest hospital emergency room or other appropriate setting. Be sure to tell them that you are a member of CareSource and show them your ID card.
- If the provider treating you for an emergency takes care of your emergency but thinks you need other medical care to treat the problem that caused your emergency, then the provider must call CareSource.
- If you are able, call your PCP as soon as you can to let him or her know that you have a medical emergency, or have someone call for you. Then call your PCP as soon as you can after the emergency to schedule any follow-up services.
- If the hospital has you stay, then please make sure that CareSource is called within 24 hours.

## PREVENTIVE CARE

Preventive care means making regular visits to your doctor even when you do not feel sick. Routine checkups, tests and screenings can help your doctor find and treat problems early before they become serious.

*Preventive care services are covered at no cost to you.*

Preventive care services are covered at no cost to you. These include screening mammograms, Pap tests, and vision and hearing screenings.

## PRESCRIPTION DRUGS

We want to make sure you get the safest, most cost-effective drugs for your needs. CareSource Just4Me™ uses a Prescription Drug List (PDL). Drugs are categorized into tiers that represent different

cost-sharing amounts. To learn more about how to use our pharmaceutical management procedures, look in the introduction section of the PDL that can be found on our website. If you do not have access to the Internet, then please call Member Services and they will be able to assist you.

Some drugs may have limits on how much can be dispensed to you at one time. You may need to try one drug before taking another. We may also require your provider to submit information to us to explain why a specific drug or a certain amount is needed. This is called a prior authorization request. We must approve the request before you can get the drug. These requirements help curb misuse and abuse and make sure you get the most appropriate drugs.

*We may require your provider to submit information to us to explain why a specific drug or a certain amount is needed. This is called a prior authorization request.*

To find out which drugs are on the list and which tier they are in, you can:

- Look at the full list on our website. See the “Find My Prescriptions” search tool on the Member Pharmacy Page under “Quick Links.” You can search by brand or generic name.
- Call our Member Services Department and ask for help.

## **NETWORK PHARMACIES**

## OPTIONAL DENTAL AND VISION BENEFITS

CareSource Just4Me™ covers dental service related to accidental injury. If you chose a Just4Me™ Plan with enhanced dental and vision benefits, then you can also get routine, basic and major dental services.

Your Evidence of Coverage (EOC) has more details about dental and vision care benefits.

## SERVICES THAT REQUIRE A PRIOR AUTHORIZATION

We want to make sure the care you get is the best care for your needs. CareSource keeps track of the services you get from health care providers. We discuss some services with your providers before you get them. We do this to make sure the services are appropriate and necessary.

Your doctor will assist you in getting a prior authorization from us for services that need one. For example, some procedures and most inpatient hospital stays require a prior authorization.

Many other services do not need a prior authorization. You do not need a prior authorization to see your PCP or most specialists. You don't need a prior authorization for lab work, X-rays or many outpatient services either. Your doctor will tell you when you need these types of care. A list of the services that require prior authorization is available by calling Member Services at **1-855-202-0622**.

Utilization Management is when CareSource evaluates, according to established criteria or guidelines, the health care services members receive. We do this to make sure it is the best care for your needs.

CareSource uses the most current and appropriate care and service to make clinical decisions about the health care you receive. We do not give rewards to health partners or employees for not providing services to you, and we do not encourage or reward health care decisions that could reduce services to members.

CareSource does not give incentives to health partners to put up any barriers to your care. We also do not allow any CareSource staff member or representative of CareSource to make hiring, promotion or termination decisions about health partners or others based on any likelihood that they will support denying benefits and services to members.

## **REVIEW OF NEW TECHNOLOGY**

CareSource will review any requests for newly developed technology or services that are not currently covered by Just4Me™. This includes newly developed:

- Health care services

## EXPLANATION OF BENEFITS (EOB)

You may receive an EOB statement from CareSource. An EOB is not a bill. These statements show what services were billed to CareSource and how they were paid.

They tell you:

- The member who got the service
- The provider who billed for the service
- The date the service was received
- A description of the service
- The amount CareSource paid for the service
- How much you owe or already paid for the service, if anything

If you do owe for a service, then you will get a bill from the provider. We encourage you to save these EOB statements and pay only the amount listed as your responsibility. If you get a bill from a provider for more than the amount the EOB shows as your responsibility, then please call Member Services at **1-855-202-0622**.

## ***How to pay your bill***

The fee you pay to CareSource to be covered by CareSource Just4Me™ is called a Premium. There are three ways to pay your monthly Premium:

- **Pay online.** Go to **MyCareSource.com**. Pay by credit or debit card or bank transfer. You must create a My CareSource™ account to pay online.

The fastest ways to pay are online or by phone. CareSource offers these services to you at no charge.

# *Quality Improvement Program*

## **Program Purpose**

Your care means a lot to us. CareSource continually reviews the quality of care and service offered to our members. We implement programs to improve how we work internally, our delivery of health care services and our members' health outcomes.

In order to ensure a structure, key processes and a culture of continuous improvement, CareSource has implemented a comprehensive Quality Improvement Program. The Program has evolved from managing individual episodes of illness to oversight of the entire continuum of care to include wellness, prevention and disease and case management.

This is an evolving program that is responsive to the needs of our members, drawing and analyzing information from a variety of sources that impact your care. We always look at standards set by the medical community through practicing providers' input, regulators and accrediting bodies.

A written evaluation of the Quality Improvement Program is conducted annually. This helps to determine how well the Quality Improvement activities are working. It is submitted to appropriate regulatory and accrediting bodies as required. A cross-functional team participates in the evaluation process.

## **Program Scope**

CareSource supports an active, ongoing, and comprehensive Quality Improvement Program. The scope of the Quality Improvement Program includes:

- Advocate for members across settings
- Meet member access and availability needs for physical and behavioral health care
- Determine interventions for HEDIS overall rate improvement that increase preventive care rates and facilitate support of members' acute and chronic health conditions and complex needs
- Determine interventions for Consumer Assessment of Healthcare Providers and Systems (CAHPS) rate improvement that enrich member and health partner experience and satisfaction
- Demonstrate enhanced care coordination and continuity across settings
- Meet members' cultural and linguistic needs
- Monitor important aspects of care to ensure the safety of members across health care settings
- Determine practitioner adherence to clinical practice guidelines
- Support member self-management efforts

- Partner collaboratively with network partners, practitioners, regulatory agencies, and community agencies
- Ensure regulatory and accrediting agency compliance

### **Quality Measures**

CareSource continually assesses and analyzes the quality of care and services offered to our members. This is accomplished by using objective and systematic monitoring and evaluation to implement programs to improve outcomes.

CareSource uses the Healthcare Effectiveness Data and Information Set (HEDIS®) to measure the quality of care delivered to members. HEDIS is one of the most widely used means of health care measurement in the United States. HEDIS® is developed and maintained by The National Committee for Quality Assurance (NCQA). The HEDIS® tool is used by America's health plans to measure important dimensions of care and service and allows for comparisons across health plans in meeting state and federal performance measures and national HEDIS® benchmarks. HEDIS® measures are based on evidence-based care and address the most pressing areas of care. Potential quality measures for the Health Insurance Marketplace are:

- Wellness and Prevention
  - Preventive Screenings (breast cancer, cervical cancer, chlamydia)
  - Well-Child Care
- Chronic Disease Management
  - Comprehensive Diabetes Care
  - Controlling High Blood Pressure
- Behavioral Health
  - Follow-up After Hospitalization for Mental Illness
  - Antidepressant Medication Management
  - Follow-up for Children Prescribed ADHD Medication
- Safety
  - Use of Imaging Studies for Low Back Pain

CareSource uses the annual member survey, Consumer Assessment of Healthcare Providers and Systems (CAHPS®) Surveys, to capture member perspectives on health care quality. CAHPS is a program overseen by the United States Department of Health and Human Services—Agency for Healthcare Research and Quality (AHRQ). Potential CAHPS measures for the Health Insurance Marketplace include:

- Customer Service
- Getting Care Quickly
- Getting Needed Care
- How Well Doctors Communicate
- Ratings of All Health Care, Health Plan, Personal Doctor, Specialist

## Preventive Guidelines and Clinical Practice Guidelines

CareSource approves and adopts nationally accepted standards and guidelines and promotes them to practitioners and members to help inform and guide clinical care provided to Just4Me™ members. Guidelines are reviewed at least every two years or more often as appropriate, and updated as necessary. The use of these guidelines allows CareSource to measure the impact of the guidelines on outcomes of care. Review and approval of the guidelines are completed by the CareSource Clinical Advisory Committee every two years or more often as appropriate. The guidelines are then presented to the CareSource Quality Enterprise Committee. Topics for guidelines are identified through analysis of Just4Me™ members. Guidelines may include, but are not limited to:

- Behavioral Health (i.e., depression)
- Adult Health (i.e., hypertension, diabetes)
- Population Health (i.e., obesity, tobacco cessation)

Information about clinical practice guidelines and health information are made available to Just4Me™ members via member newsletters, the CareSource member website, or upon request. **Preventive Guidelines and Health Links** are available to members and providers on the website or on paper.

## Word meanings

**Annual Deductible** means the amount you must pay for Covered Services in a Benefit Year before we will begin paying for Benefits in that Benefit Year. Amounts paid toward the Annual Deductible for Covered Services that are subject to a visit or day limit will also be calculated against the maximum Benefit limit. The limited Benefit will be reduced by the number of days/visits used toward meeting the Annual Deductible. Network Benefits for Preventive Health Services are never subject to payment of the Annual Deductible.

**Annual Out-of-Pocket Maximum** means the maximum amount you pay in a Benefit Year relating to obtaining Benefits. When you reach the Annual Out-of-Pocket Maximum, Benefits for Covered Services that apply to the Annual Out-of-Pocket Maximum are payable at 100% of Eligible Expenses during the rest of the Benefit Year. For Silver and Bronze Just4Me™ plans, Medical and Pharmacy Copayments and Coinsurance, as well as amounts paid toward your Annual Deductible, apply to your Annual Out-of-Pocket Maximum. For Gold plans, Medical Copayments and Coinsurance, as well as amounts paid toward your Annual Deductible, apply to your Annual **Medical** Out-of-Pocket Maximum. Additionally for Gold plans, Pharmacy Copayments and Coinsurance apply to your Annual **Pharmacy** Out-of-Pocket Maximum. For all plans, Copayments for optional dental and vision benefits do not apply to your Annual Medical Out-of-Pocket Maximum.

The following costs will never apply to the Annual Out-of-Pocket Maximum:

- Any charges or Copayments for services that are not Covered Services or Coinsurance amounts for Covered Services available by an optional Rider, unless specifically stated otherwise in the Rider;
- The amount of any reduced Benefits if you don't obtain authorization from us;
- Charges that exceed Eligible Expenses;
- The Annual Deductible.

Even when the Annual Out-of-Pocket Maximum has been reached, you will still be required to pay:

- Any charges for Non-Covered Services;
- Charges that exceed Eligible Expenses;
- The amount of any reduced Benefits if you don't obtain authorization from us;
- Coinsurance amounts for Covered Services available by an optional Rider, unless stated otherwise in the Rider.

**Coinsurance** means the charge, stated as a percentage of Eligible Expenses, that you are required to pay for certain Covered Services after the Annual Deductible is satisfied.

**Copayment** means the charge, stated as a flat dollar amount, that you are required to pay for certain Covered Services.

**Covered Services** means those Health Care Services determined to be Medically Necessary per the Plan's medical policies and nationally recognized guidelines and that we determine to be all of the following: Provided for the purpose of preventing, diagnosing, or treating a Sickness, Injury, Mental Sickness, substance use disorder, or their symptoms; consistent with nationally recognized scientific evidence, as available, and prevailing medical standards and clinical guidelines, as described below; and not provided for the convenience of you, a Provider, or any other person.

- In applying the above definition, “scientific evidence” and “prevailing medical standards and clinical guidelines” have the following meanings: “Scientific evidence” means the results of controlled clinical trials or other studies published in peer-reviewed, medical literature generally recognized by the relevant medical specialty community. “Prevailing medical standards and clinical guidelines” means nationally recognized professional standards of care including, but not limited to, national consensus statements, nationally recognized clinical guidelines, and national specialty society guidelines.

**Evidence of Coverage (EOC)** – The EOC is an important legal document that describes the relationship between you and CareSource. It serves as your contract with CareSource and it describes your rights, responsibilities, and obligations as a Covered Person under the Just4Me™ Plan. This EOC also tells you how the Plan works and describes the Covered Services you and your Dependents are entitled to, any conditions and limits related to Covered Services, the Health Care Services that are not covered by the Plan, and the Annual Deductible, Copayments, and Coinsurance you must pay when you receive Covered Services.

**Explanation of Benefits (EOB)** – A statement you may receive from CareSource that shows what health care services were billed to CareSource and how they were paid. An EOB is not a bill.

*Please review your CareSource Just4Me™ Evidence of Individual Coverage and Health Insurance Contract (EOC) to learn about your Covered Services and Copayment and Coinsurance requirements.*

**Member** has the same meaning as Covered Person. Covered Person means an individual, including you, who is properly enrolled under the Plan.

**Network Provider** means a Provider who has entered into a contractual arrangement with us or is being used by us, or another organization that has an agreement with us, to provide certain Covered Services or certain administration functions for the Network associated with this EOC. A Network Provider may also be a Non-Network Provider for other services or products that are not covered by the contractual arrangement with us as Covered Services. In order for a Pharmacy to be a Network Provider, it must have entered into an agreement with the Pharmacy Benefit Manager (PBM) to dispense Prescription Drugs to Covered Persons, agreed to accept specified reimbursement rates for Prescription Drugs, and been designated by the PBM as a Network Pharmacy.

**Plan** means the CareSource Just4Me™ plan.

**Premium** means the periodic fee required for each member, in accordance with the terms of the Plan.

**Prescription Drug List** means a list that categorizes into tiers medications, products or devices that have been approved by the U.S. Food and Drug Administration. This list is subject to periodic review and modification (generally quarterly, but no more than six (6) times per Benefit Year). You may determine to which tier a particular Prescription Drug has been assigned by contacting CareSource at the toll-free number on your ID Card or by logging onto **CareSource.com**.

**Utilization Management** means when CareSource evaluates, according to established criteria or guidelines, the health care services members receive. We do this to make sure it is the best care for your needs.

*Your EOC has more details about these terms and many more. You should read the entire EOC and keep it in a safe place for future reference.*
