Paying Your Premium On Time is Important

It is important to pay the total premium amount due by the due date. If we do not receive your premium payment by the due date on the invoice, your account is past due. By not paying your premium payment on time and allowing your account to become past due, your medical and pharmacy benefits are at risk.

If your premium payment becomes 30 days or more past due, your pharmacy benefits will be suspended. You will be expected to pay for prescriptions until your account is paid in full.

In addition, if your premium payment becomes 30 days or more past due, your medical benefits through a physician or medical facility are at risk. We are required to notify your providers regarding this delinquency. It will be up to the physician or facility to decide whether or not you will be required to pay at time of service.

If you have applied for new coverage, payment for any past due premiums from the previous 12 months and the premium for the first month of new coverage must be paid in full by the due date to activate the new coverage.

For more information on what will occur if you do not pay your premium payments on time, please refer to your *Evidence of Coverage Section 2: How the Plan Works*.

Check your Payments and Balance

You can see when your last payment was posted by clicking **Account** at the top of the My CareSource account screen. This will show your total amount due. Click the link on the right side of the screen that says **View Account Activity**, and you will be able to see each payment and when it was received. You can also view and print past invoices or request a printed copy of an invoice.

ID CARDS

You will receive your CareSource ID card in a separate mailing. Your ID card will be available on your My CareSource account, as well as the CareSource Mobile App. Your card lists each member of your family who has health insurance coverage on your Plan. Be sure to show your card each time you go to the doctor, hospital, urgent care center and pharmacy.

STAYING IN TOUCH

In addition to your monthly invoice, CareSource may send you additional communications to keep you up-to-date on your plan details and benefits available to all members.

Some of these communications may be about you or your family's specific health conditions, special programs offered to you, or care management opportunities. Some are just to keep you updated with the latest information about CareSource and your plan. Regular communications you will receive include our member newsletters and Explanations of Benefits.

Be sure you choose your preferred method of contact on your My CareSource account. As we continue to work to streamline our communication, we will deliver material to you in your preferred format whenever possible.

Member Newsletters

Our MemberSource newsletter is sent out quarterly, and is available online at **CareSource.com/marketplace**, under the *Education* link.

This quarterly communication helps you take the fullest advantage of your plan benefits, gives useful health and wellness information, and keeps you up to date with what's happening at CareSource. You can view the most current edition, as well as past editions at **CareSource.com/marketplace**.

Explanation of Benefits

When you visit the doctor, or have other health care services, we will send you an Explanation of Benefits (EOB). It will outline the care you received, the cost, what CareSource pays for the service and the part of the cost that you may be responsible for paying. Your EOB is not a bill. It will tell you:

- The member who got the service
- The provider who billed for the service
- The date the service was received
- A description of the service
- The amount CareSource paid for the service
- How much you owe or already paid for the service, if anything

If you do owe for a service, you will get a bill from the provider. We encourage you to save these EOB statements and pay only the amount listed as your responsibility. If you get a bill from a provider for more than the amount the EOB shows as your responsibility, or for services you did not receive, call Member Services at the number on the back of your ID card.

It is important that you review these EOBs when they come to be sure that you are being charged for the correct services and the correct amounts. The EOB is not a bill, it is a summary of the claim for services that your provider submitted and what CareSource paid to the provider. Your review ensures that you are being charged only for services that you have received, and can help us and your provider prevent fraud. If you suspect errors or fraud, please let us know by contacting our Special Investigations Unit. Contact information is located in the Fraud, Waste and Abuse section of this handbook.

The following is a sample of the summary (front) page of an EOB. Your EOB includes a list of additional summary information and listings of individual charges for each service. Your Explanation of Benefits can be several pages long.

Explanation of Benefits Front Page

WHERE TO GET CARE

Generally, you must receive care from a CareSource network provider. A network provider is a doctor, pharmacy, hospital, clinic or other health care provider that is contracted with CareSource to provide health care services to our members.

You can find network providers listed through our Mobile App, on our ***Find a Doctor*** tool at **CareSource.com/marketplace**, or you can request a printed Provider Directory for your area. You can also call Member Services and a representative will be able to help find a network provider near you.

In order to have your health care services covered by CareSource, you must get them from a network provider, except for as provided in your Evidence of Coverage. Please refer to your Evidence of Coverage for additional details on when it is permissible to receive care from a non-network provider.

Primary Care Provider

Your main source of care should be your Primary Care Provider (PCP), also known as a health care provider or just provider. Your PCP will get to know you, and can coordinate any additional or extra care you may need, such as testing, or specialist referrals. Your PCP should be familiar with your CareSource plan and what is covered, but it is always a good idea to check with your doctor or with CareSource to ensure a test, specialist, or treatment is covered.

Going to the same PCP each time you need care will help your PCP get to know you and your needs. The more familiar your PCP is with you and your medical history, the better your PCP will be able to treat you. You are permitted to see any PCP or network provider that you like.

Giving us the name of your PCP through your My CareSource account or the CareSource Mobile App will help us ensure that we are applying the appropriate cost and will allow us to communicate effectively with your PCP about your care and important health alerts. You do not have to notify us if you change your PCP, and you can change as often as you like. If you want to change the PCP on record with us, it is easiest to change it through your My CareSource account.

To locate a PCP, specialist or other provider that is in-network, use our ***Find a Doctor*** tool available through **CareSource.com** or the CareSource Mobile App. You can also call Member Services and they will help you locate a provider near you.

CareSource24 Nurse Advice Line

CareSource24®, our nurse advice line is available 24 hours a day, 365 days a year. If you are injured or sick, call CareSource24. A registered nurse will ask you questions and advise you: if care is needed, what kind of care, when it is needed and who should provide it.* If the nurse refers you to MYIdealDOCTOR™, you can be connected without making another phone call. CareSource24 services are available at no cost to you.

When you call CareSource24, a nurse can help you*:

- With pain or symptom relief
- Decide if your injury or illness is an emergency
- Decide when to go to your doctor, an urgent care or emergency room
- Understand if a telemedicine visit is a good option
- Know what to ask your doctor
- Learn about your medications
- Get information about tests or surgery
- Learn about nutrition and wellness

Call CareSource24 at **1-866-206-0701**.

** CareSource24 registered nurses do not provide care or treatment and cannot diagnose conditions. CareSource24 registered nurses provide you with general information about your health related questions. In the case of a true medical emergency, always call 911 first.*

Telemedicine

CareSource has partnered with MYidealDOCTOR to provide telemedicine services to all marketplace plan members. Telemedicine is not meant to replace your primary care provider, but to enhance the care you get from your doctor. If you need to see a doctor soon, but can't get an appointment quickly, or if your need is urgent but not an emergency, consider MYidealDOCTOR.

Getting care is easy. With one phone call, you can consult with a board certified physician, receive advice and if necessary, have a prescription called in to a local pharmacy. MYidealDOCTOR is available 24 hours a day, 7 days a week. Call 1-855-879-4332 or go online to www.MYidealDOCTOR.com. A doctor will call you back for your consultation, normally within 15 minutes.

This handy service is available 24/7/365 and can be used to treat many common health problems, like:

- Coughs/Colds/Flu
- Congestion/sinus infection
- Allergies
- Pink eye

Urgent Care Clinics

Urgent Care Clinics should be used for situations that require prompt attention, when you cannot get in to see your Primary Care Provider (PCP) quickly enough. You should also consider going to an Urgent Care Clinic when you require a higher level of care than your PCP or local Convenience Care Clinic can provide. If you aren't sure where to go for care, call our 24-hour Nurse Advice Line, CareSource24. The number is on your ID card.

To find the nearest Urgent Care Clinic, use our ***Find a Doctor*** online tool and look under "Clinic" for Type, then select "Urgent Care/After Hours" for the Specialty. Additionally, you may call Member Services, CareSource24; or call a clinic near you directly and ask if they accept CareSource marketplace plans.

Hospital Emergency Room

A hospital emergency room (ER) visit should be reserved only for true emergencies. They are typically the most expensive course of action for you, and if your issue is not a true emergency, you may have to wait for an extended time to get attention. Some examples of when emergency services are needed include:

- Miscarriage/pregnancy with vaginal bleeding
- Severe chest pain
- Shortness of breath
- Loss of consciousness
- Seizures/convulsions
- Uncontrolled bleeding
- Severe vomiting
- Rape
- Major burns
- Drug overdose
- Psychosis

You do not have to contact CareSource for an OK before you get emergency services. If you have an emergency, call 911 or go to the nearest ER or other appropriate setting. If you are not sure whether you need to go to the ER, call your primary care provider or the CareSource24 nurse advice line at **1-866-206-0701** (TTY/TDD: 1-800-982-8771 or 711). Your PCP or the CareSource24 nurse can talk to you about your medical problem and give you advice on what you should do.

Remember, if you need emergency services:

- Go to the nearest hospital ER or other appropriate setting. Be sure to tell them that you are a CareSource member and show them your ID card.
- If the provider treating you for an emergency takes care of your emergency but thinks you need other medical care to treat the problem that caused your emergency, then you or the provider must call CareSource.
- If you are able, call your PCP as soon as you can to let him or her know that you have had a medical emergency, or have someone call for you. Call your PCP as soon as you can after the emergency to schedule follow-up services.
- If the hospital has you stay (admits you to a room in the hospital), please make sure that CareSource is called within 24 hours.

When you are Outside of our Service Area

You may get sick or hurt while traveling outside of our service area. If this happens and you are within the United States, you can get medically necessary Covered Services from a provider that is not in our network. The counties in our service area are on our website.

Prior to seeking urgent or emergency care, we encourage you to call your PCP or CareSource24 for guidance, but this is not required. You should get care from the nearest and most appropriate health care provider. Emergency care is covered both in and out of our service area within the United States.

If you receive emergency care from a provider who is not a Network Provider, or urgent care services outside the service area for your plan, you may need to submit the bill you receive to CareSource with a claim form. You can get a Member Claim Form online at **CareSource.com**, under Forms, or by calling Member Services at **1-855-202-0622** (TTY/TDD: 1-800-982-8771 or 711).

CURRENT TREATMENT PLANS AND CONTINUITY OF CARE

Sometimes members who enroll in CareSource plans already have treatment or care planned. **Call CareSource before seeing a provider that is not in the CareSource network.** In addition, if you have health services planned after your benefits start, call Member Services to find out how to get coverage. If you do not call us, you may not be able to get the service covered. Except in emergencies, call Member Services before getting these services from any provider:

- Transplants (like kidney or bone marrow)
- Any surgery
- Cancer care
- Care after a hospital stay within the last 30 days
- Medical equipment
- Home health services

You do not need to call if you have services set up with a provider who is in the CareSource network *and* the planned services do not need a Prior Authorization (approval ahead of time). See your *Evidence of Coverage* for more information about Prior Authorizations, or call the Member Services number on your ID card. You can also view a list of services that require Prior Authorization on our website at **CareSource.com/marketplace**.

See your *EOC* and *Schedule of Benefits* for your costs and more details, or call EyeMed directly at **1-833-337-3129**.

Prescription Drugs

We want to make sure you get the safest, most cost-effective drugs for your needs. CareSource uses a Marketplace Drug Formulary, also known as a Formulary. Drugs are categorized into tiers that represent different costs. To learn more about how to use our Formulary, look in the introduction section of the document. The Drug Formulary can be found on the Pharmacy pages of our website. If you do not have access to the Internet, please call Member Services and they will be able to assist you.

Some drugs may have limits on how much can be dispensed to you at one time. You may need to try one drug before taking another. We may also require your provider to submit information to us to explain why a specific drug or a certain amount is needed. This is called a Prior Authorization request. We must approve the request before you can get the drug. These requirements help curb misuse and abuse and make sure you get the most appropriate drugs.

To find out which drugs are on the list and which tier they are in, you can:

- Use our ***Find My Prescriptions*** online search tool. You can search by brand or generic name. This tool will confirm coverage, prior approval, and your cost based upon your plan.
- Look at the full list on our website. You can find the Formulary on the Pharmacy page.
- Call our Member Services department and ask for help.

Medication Coverage – Pharmacy

Visit **CareSource.com/marketplace** to use the ***Find My Prescriptions*** tool to confirm coverage for your medications, to find out if prior approval is required, and the cost associated with a specific medication. If your medication requires prior approval, have your provider ask for approval from CareSource.

Network Pharmacies

In order to have your prescriptions covered by CareSource, you must get them filled at a pharmacy in our network. Our network includes many major pharmacies, including those listed below, plus many smaller pharmacies.

- Costco
- CVS
- Discount Drug Mart
- Kmart
- Kroger
- Meijer
- Rite Aid
- Sam's Club
- Target
- Walmart

To see the full list of network pharmacies, use the ***Find a Doctor*** tool on **CareSource.com/marketplace**.

Mail Order Pharmacy

CareSource works with CVS Caremark to fill prescriptions and have them delivered to your home. This will change the amount of your copay. CVS Caremark can:

- Help you get your prescription filled or moved from the pharmacy you get it from now
- Deliver your medications to your home, workplace or your doctor's office

For more information, call Caremark Connect at 1-800-237-2767. They can take your call Monday through Friday from 7:30 a.m. to 9 p.m. Eastern Standard Time (EST).

You may also visit Caremark.com in order to manage prescription refills for existing mail order medications and check coverage information.

Medication Therapy Management

At CareSource, we know the impact that proper medication use can have on your health. That's why we have a Medication Therapy Management (MTM) program for our members. This program is geared toward helping you learn about your medications, prevent or address medication-related problems, decrease costs, and stick to your treatment plan.

This program may be available from your local pharmacists if they have chosen to take part. In many cases, a pharmacist will ask if you are interested in learning more about your medications. They ask because they want to help you. Through this program, your local pharmacist may get alerts and information about your medications and decide if you may need extra attention. They offer ways to help you with your medications and how to take them the right way. They will also work with your doctor and others to address your needs and improve how you use your medications. The pharmacist may ask to schedule time with you to go over all of your medications, including any pills, creams, eye drops, herbals or over the counter items.

This service and the pharmacist's help and information are all part of being a CareSource member and are available at no cost to you.

MTM Benefits to Members and Health Partners

- Improves safe use of medications
- Provides better coordination of care with all your doctors and other caregivers
- Gives you more information about your medications and how to use them correctly
- Adds another person to help you with your overall health care

Generic Substitution

When available, your pharmacy may dispense generic drugs in place of brand name drugs in accordance with state law. This is called Generic Substitution. If you or your doctor requests the brand name drug be dispensed when a generic is available you may be responsible for the full cost of that drug.

Services that Require a Prior Authorization

CareSource keeps track of the services you get from health care providers. We discuss some services with your providers before you get them. We do this to make sure the services are appropriate and necessary.

Your doctor will assist you in getting a prior authorization from us for services that need one. For example, some procedures and most inpatient hospital stays require a prior authorization.

Many other services do not need a prior authorization. You do not need a prior authorization to see your PCP or most in-network specialists. You do not need a prior authorization for lab work, X-rays or many outpatient services either, as long as the provider is in our network. Your doctor will tell you when you need these, but you are responsible to ensure that you receive these types of care from an in-network provider.

A list of the services that require prior authorization is available through your My CareSource account, or by calling Member Services.

QUALITY IMPROVEMENT PROGRAM

Program Purpose

Your care means a lot to us. CareSource continually reviews the quality of care and service offered to our members. We put programs in place to improve how we work internally, provide health care services to members, and help members with their health.

Our Quality Improvement Program receives a written evaluation each year. This helps determine how well our Quality Improvement activities are working. A cross-functional team participates in the evaluation process.

Currently, all CareSource Marketplace Health Plans are Accredited by the National Committee for Quality Assurance (NCQA®). This accreditation status shows our commitment to service and clinical quality that meets or exceeds requirements for consumer protection and quality improvement.

Program Scope

CareSource supports an active, ongoing, and comprehensive Quality Improvement Program. The Quality Improvement Program will:

- Advocate for members across settings
- Meet member access and availability needs for physical and behavioral health care
- Demonstrate enhanced care coordination and continuity across settings
- Meet members' cultural and linguistic needs
- Monitor important aspects of care to ensure the safety of members across health care settings
- Determine practitioner adherence to clinical practice guidelines
- Support member self-management efforts
- Work collaboratively with network partners, practitioners, regulatory agencies, and community agencies
- Develop interventions that improve and support members' acute and chronic health conditions and complex needs
- Develop interventions that enrich member and health partner experiences and overall satisfaction
- Ensure regulatory and accrediting agency compliance

Quality Measures

CareSource uses an annual member survey, *Qualified Health Plan Enrollee Experience*, to find out how our members feel about the quality of the health care they receive. You might receive a request to complete this survey. Your experiences and opinions are important to us. Please complete and return the survey promptly.

This is a quality survey overseen by the United States Department of Health and Human Services—Agency for Healthcare Research and Quality (AHRQ). Potential measures for the Health Insurance Marketplace include:

- Customer Service
- Getting Care Quickly
- Getting Needed Care
- How Well Doctors Communicate
- Ratings of All Health Care, Health Plan, Personal Doctor, Specialist

We continually assess the quality of care and services offered to you. We use an objective monitoring and evaluation system to create programs that will improve your health.

CareSource uses the Healthcare Effectiveness Data and Information Set (HEDIS[®]) to measure the quality of care delivered to members. HEDIS is one of the most widely used health care measurements in the United States. HEDIS is developed and maintained by The National Committee for Quality Assurance (NCQA).

The HEDIS tool is used by CareSource to measure member care and service, and allows for comparison to other health plans in meeting state and federal performance measures and national HEDIS benchmarks. HEDIS measures evidence-based care and addresses the most serious areas of care. Possible quality measures include:

- Wellness and Prevention
 - Preventive Screenings (breast cancer, cervical cancer, etc.)
 - Well-Child Care
- Chronic Disease Management
 - Comprehensive Diabetes Care
 - Controlling High Blood Pressure
- Behavioral Health
 - Follow-up After Hospitalization for Mental Illness
 - Antidepressant Medication Management
 - Follow-up for Children Prescribed ADHD Medication

- Safety
 - Use of Imaging Studies for Low Back Pain

HEDIS® and NCQA® are registered trademarks of the National Committee for Quality Assurance.

CMS evaluates qualified health plans (QHPs offered through the Marketplace using QHP Enrollee Survey response data. QHP issuers contract with HHS-approved survey vendors that independently conduct the survey each year. QHP Enrollee Survey results may change from one year to the next. Preventive Guidelines and Clinical Practice Guidelines

Your health is important. That's why CareSource uses and promotes preventive and clinical guidelines to help guide the care offered to our members. Here are some easy ways that you can maintain or improve your health:

- Establish a relationship with a PCP.
- Make sure you and your family have regular checkups with your PCP to access appropriate preventive services.
- If you have a chronic condition (such as asthma or diabetes) make sure that you see your doctor regularly. You also need to follow the treatment that your doctor has given you. Make sure that you take the medications that your doctor has asked you to take.
- Remember CareSource24 is available to help you. You can call the number on your member ID card anytime day or night, any day of the year.
- CareSource has programs that can help you maintain or improve your health. You can call **1-855-202-0622** (TTY/TDD: 1-800-982-8771 or 711) for more information about these programs.

Health information and clinical practice guidelines are made available to CareSource members through member newsletters, the CareSource member website, or upon request. Preventive Guidelines and health links are available to members and providers on the website or in print.

Preventive and Clinical Guidelines are reviewed at least every two years, and are updated as necessary. Updated guidelines are then presented to the CareSource Quality Enterprise Committee.

Topics for guidelines are identified by analyzing CareSource member data. Guidelines may include, but are not limited to:

- Behavioral Health (e.g., depression)
- Adult Health (e.g., hypertension, diabetes)
- Child/Adolescent Health (e.g., immunizations)
- Population Health (e.g., obesity, tobacco cessation)

WORD MEANINGS

Please note: capitalized words are defined in your *Evidence of Coverage (EOC)*, *Section 13: Glossary*. Your EOC has more details about these terms and many more. You should read the entire EOC and keep it in a safe place for future reference.

Annual Deductible means the amount you must pay for Covered Services in a Benefit Year before we will begin paying for Benefits in that Benefit Year. Copayments do not count towards the Annual Deductible. Amounts paid toward the Annual Deductible for Covered Services that are subject to a visit or day limit will also be calculated against that maximum Benefit limit. The limited Benefit will be reduced by the number of days/visits used toward meeting the Annual Deductible. Network Benefits for Preventive Health Care Services are never subject to payment of the Annual Deductible.

Annual Out-of-Pocket Maximum means the maximum amount you pay in a Benefit Year relating to obtaining Benefits. When you reach the Annual Out-of-Pocket Maximum, Benefits for Covered Services that apply to the Annual Out-of-Pocket Maximum are payable at 100% of Eligible Expenses during the rest of the Benefit Year. Payments toward the Annual Deductible, Copayments and Coinsurance for Covered Services will apply to your Annual Out-of-Pocket Maximum, unless otherwise noted below.

The following costs will never apply to the Annual Out-of-Pocket Maximum:

- Any charges for services that are not Covered Services;
- Coinsurance amounts for Covered Services available by an optional Rider/Enhancement, unless specifically stated otherwise in the Rider/Enhancement; and
- Copayments for optional dental and vision benefits or any other optional Rider/Enhancement.

Even when the Annual Out-of-Pocket Maximum has been reached, you will still be required to pay:

- Any charges for Non-Covered Services;
- Copayments and Coinsurance amounts for Covered Services available by an optional Rider/Enhancement, unless specifically stated otherwise in the Rider/Enhancement; and
- The amount of any Benefits if you do not obtain authorization from us when required to do so under the terms of the Plan.

Coinsurance means the charge, stated as a percentage of Eligible Expenses, that you are required to pay for certain Covered Services after the Annual Deductible is satisfied.

Copayment means the charge, stated as a flat dollar amount, that you are required to pay for certain Covered Services.

Covered Services means those Health Care Services that are (1) covered by a specific Benefit provision of the Plan; (2) not Excluded under the Plan; and (3) determined to be Medically Necessary per the Plan's medical policies and nationally recognized guidelines. We determine what are Covered Services when they meet all of the following criteria: provided for the purpose of preventing, diagnosing, or treating a Sickness, Injury, Behavioral Health Disorder, Substance Use Disorder, or their symptoms; consistent with nationally recognized scientific evidence, as available, and prevailing medical standards and clinical guidelines, as described below; and not provided for the convenience of you, a Provider, or any other person.

In applying the above definition, "scientific evidence" and "prevailing medical standards and clinical guidelines" have the following meanings: "Scientific evidence" means the results of controlled clinical trials or other studies published in peer-reviewed, medical literature generally recognized by the relevant medical specialty community. "Prevailing medical standards and clinical guidelines" means nationally recognized professional standards of care including, but not limited to, national consensus statements, nationally recognized clinical guidelines, and national specialty society guidelines.

Evidence of Coverage (EOC) – The EOC is an important legal document that describes the relationship between you and CareSource. It serves as your contract with CareSource and it describes your rights, responsibilities, and obligations as a Covered Person under the Plan. The EOC also tells you how the Plan works and describes the Covered Services you and your Dependents are entitled to, any conditions and limits related to Covered Services, the Health Care Services that are not covered by the Plan, and the Annual Deductible, Copayments, and Coinsurance you must pay when you receive Covered Services.

Explanation of Benefits (EOB) – A statement you may receive from CareSource that shows what health care services were billed to CareSource and how they were paid. An EOB is not a bill.

Marketplace Drug Formulary means a list of covered prescription drugs, products, or medications that have been approved by the U.S. Food and Drug Administration, which are categorized into cost-share tiers. This list is subject to periodic review and modification. You can find out which tier a particular Prescription Drug has been assigned to by contacting CareSource Member Services at the toll-free number on your ID card or by logging onto **CareSource.com** and going to the Pharmacy pages.

Member has the same meaning as Covered Person. Covered Person means an individual, including you, who is properly enrolled under the Plan.

Network Provider means a Provider who has entered into a contractual arrangement with us or is being used by us, or another organization that has an agreement with us, to provide certain Covered Services or certain administration functions for the Network associated with this EOC. A Network Provider may also be a Non-Network Provider for other services or products that are not covered by the contractual arrangement with us as Covered Services. In order for a Pharmacy to be a Network Provider, it must have entered into an agreement with the Pharmacy Benefit Manager (PBM) to dispense Prescription Drugs to Covered Persons, agreed to accept specified reimbursement rates for Prescription Drugs, and been designated by the PBM as a Network Pharmacy.

Plan means CareSource.

Premium means the periodic fee required for each member, in accordance with the terms of the Plan.

Prior Authorization is an approval CareSource gives to a Covered Person or Provider before a Health Care Service is performed, received or prescribed. This includes any prospective or utilization reviews conducted prior to providing a Health Care Service.
