Monday through Friday. Or visit **HAPCareSource.com**.

HAP CareSource™ MI Health Link (Medicare-Medicaid Plan) | 2025 List of Covered Drugs (Drug List or Formulary)

Introduction

This document is called the *List of Covered Drugs* (also known as the *Drug List*). It tells you which prescription drugs and over-the-counter drugs and items are covered by HAP CareSource MI Health Link. The *Drug List* also tells you if there are any special rules or restrictions on any drugs covered by HAP CareSource MI Health Link. Key terms and their definitions appear in the last chapter of the *Member Handbook*.

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. For more information, visit **HAPCareSource.com**.

A. Disclaimers

This is a list of drugs that members can get in HAP CareSource MI Health Link.

- ❖ HAP CareSource MI Health Link is a health plan that contracts with both Medicare and Michigan Medicaid to provide benefits of both programs to enrollees.
- ❖ You can also get this document for free in other formats, such as large print, braille, or audio. Call **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m., Monday through Friday. The call is free.
- ❖ You can also get this document, now and in the future, for free in other languages or other formats such as large print or audio. You only have to make this request one time. You can also change your request. Call Member Services at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more, or look for a question and answer.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “*Drug List*” for short.)

The drugs on the *List of Covered Drugs* on page 2 are the drugs covered by HAP CareSource MI Health Link. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- HAP CareSource MI Health Link will cover all medically necessary drugs on the *Drug List* if:
 - your doctor or other prescriber says you need them to get better or stay healthy, **and**
 - you fill the prescription at a HAP CareSource MI Health Link network pharmacy.
- HAP CareSource MI Health Link may have additional steps to access certain drugs (refer to question B4 below).
- You can also find an up-to-date list of drugs that we cover on our website at **HAPCareSource.com**, ask your Care Coordinator for help, or call Member Services toll-free.

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. For more information, visit **HAPCareSource.com**.

free at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday.

B2. Does the *Drug List* ever change?

Yes, and HAP CareSource MI Health Link must follow Medicare and Michigan Medicaid rules when making changes. We may add or remove drugs on the *Drug List* during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval (PA) for a drug. (PA is permission from HAP CareSource MI Health Link before you can get a drug.)
- Add or change the amount of a drug you can get (called “quantity limits”).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, refer to question B4.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the *Drug List* now, **or**
- we learn that a drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the *Drug List* changes.

- You can always check HAP CareSource MI Health Link's up to date *Drug List* online at **HAPCareSource.com**. Updates to the *Drug List* are posted on the website monthly.
 - You can also call Member Services to check the current *Drug List* at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday.
-

B3. What happens when there is a change to the *Drug List*?

Some changes to the *Drug List* will happen **immediately**. For example:

- **Substitutions of certain new version of drugs.** We may immediately remove the drugs from the *Drug List* if we replace them with certain new versions of that drug, but your cost for the new drug will stay the same. When we add a new version of a drug, we may also decide to keep the brand name drug or original biological product on the list but change its coverage rules or limits.

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. For more information, visit **HAPCareSource.com**.

- We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
 - We can make these changes only if the drug we are adding:
 - Is a new generic version of a brand name drug, or
 - Is a certain new biosimilar version of original biological products on the *Drug List* (for example, adding an interchangeable biosimilar that can be substituted for an original biological product without a new prescription).
- Some of these drug types may be new to you. For more information, refer to Section B14.
- You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please refer to question B10 for more information on exceptions.
 - **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or effective or the drug's manufacturer takes a drug off the market, we may immediately take it off the *Drug List*. If you are taking the drug, we will send you a notice after we make the change. Please contact your prescribing doctor if you are notified.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the *Drug List*. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We add a generic drug and replace a brand name drug currently on the *Drug List*, or
- we add a new biosimilar to replace an original biological product currently on the *Drug List*, or
- we change the coverage rules or limits for the brand name drug.

When these changes happen, we will:

- tell you at least 30 days before we make the change to the *Drug List* **or**
- let you know and give you a 30-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- if there is a similar drug on the *Drug List* you can take instead **or**
- whether to ask for an exception from these changes. To learn more about exceptions, refer to question B10.

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. For more information, visit **HAPCareSource.com**.

B4. Are there any restrictions or limits on drug coverage? Or are there any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization (PA) or approval:** For some drugs, you or your doctor or other prescriber must get PA from HAP CareSource MI Health Link before you fill your prescription. If you don't get approval, HAP CareSource MI Health Link may not cover the drug.
- **Quantity limits:** Sometimes HAP CareSource MI Health Link limits the amount of a drug you can get.
- **Step therapy:** Sometimes HAP CareSource MI Health Link requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your prescriber thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables on page 2-129. You can also get more information by visiting our website at **HAPCareSource.com**. We have posted online documents that explain our PA and step therapy restrictions. You may also ask us to send you a copy.

You can also ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the *Drug List* you can take instead or whether to ask for an exception. Please refer to questions B10-B12 for more information about exceptions.

B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?

The table of drugs on page 2 has a column labeled "Necessary actions, restrictions, or limits on use."

B6. What happens if HAP CareSource MI Health Link changes their rules about some drugs (for example, PA or approval, quantity limits, and/or step therapy restrictions)?

In some cases, we will tell you in advance if we add or change PA, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the *Drug List* change.

B7. How can I find a drug on the *Drug List*?

There are two ways to find a drug:

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. For more information, visit **HAPCareSource.com**.

- You can search alphabetically by the drug's name, **or**
- You can search by medical condition.

To search **alphabetically**, refer to the Index of Covered Drugs section. You can find it in the Index section at the end of the document.

To search **by medical condition**, find the section labeled "Drugs Grouped by Medical Condition" on page xi. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, CARDIOVASCULAR, HYPERTENSION/LIPIDS. That is where you will find drugs that treat heart conditions.

B8. What if the drug I want to take is not on the *Drug List*?

If you don't find your drug on the *Drug List*, call Member Services at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m., Monday through Friday and ask about it. If you learn that HAP CareSource MI Health Link will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the *Drug List* that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Please refer to questions B10-B12 for more information about exceptions.

B9. What if I am a new HAP CareSource MI Health Link member and can't find my drug on the *Drug List* or have a problem getting my drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of HAP CareSource MI Health Link. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the *Drug List* you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 30 days of medication.

We will cover a 30-day supply of your drug if:

- you are taking a drug that is not on our *Drug List*, **or**
- health plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires PA by HAP CareSource MI Health Link, **or**
- you are taking a drug that is part of a step therapy restriction.

If you are in a nursing home or other long-term care facility, and need a drug that is not on the *Drug List* or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. **For more information**, visit HAPCareSource.com.

- We will cover one **31-day** supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new HAP CareSource MI Health Link member.
- This is in addition to the temporary supply during the first **90** days you are a member of HAP CareSource MI Health Link.

An Emergency Supply is defined by CMS as a one-time fill of a drug that is not on the list but is necessary for a current member in a long-term care setting. Current members that need an emergency supply or are prescribed a drug that is not on the list as a result of a level of care change, are placed in transition. Our claims processor will put an override in the system to allow the one-time fill. Level of care changes include the following changes from one treatment setting to another:

- Enter a long-term care (LTC) facility from a hospital or other setting,
- Leave a LTC facility and return to the community,
- Discharge from a hospital to a home,
- End a skilled nursing facility stay covered under Medicare Part A (including pharmacy charges) and refer to coverage under Medicare Part D, and
- Discharge from a psychiatric hospital with medication regimens that are highly individualized.

B10. Can I ask for an exception to cover my drug?

Yes. You can ask HAP CareSource MI Health Link to make an exception to cover a drug that is not on the *Drug List*.

You can also ask us to change the rules on your drug.

- For example, HAP CareSource MI Health Link may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or PA requirements.

B11. How can I ask for an exception?

To ask for an exception, call *Member Services*. A Member Services representative will work with you and your provider to help you ask for an exception. You can also read Chapter 9, Section F, of the *Member Handbook* to learn more about exceptions.

B12. How long does it take to get an exception?

After we get a statement from your prescriber supporting your request for an exception, we will give you a decision within 72 hours. Call Member Services at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. We will work with you and your provider to help you ask for an exception. You can also read Chapter 9, Section F of the Member Handbook to learn more about exceptions.

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. For more information, visit HAPCareSource.com.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and generally work just as well. They usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA). There are generic drugs available for many brand name drugs. Generic drugs usually can be substituted for brand name drugs at the pharmacy without a new prescription—depending on state laws.

HAP CareSource MI Health Link covers both brand name drugs and generic drugs.

B14. What are original biological products and how are they related to biosimilars?

When we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have forms that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilars alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For more information on drug types, refer to Chapter 5 of the *Member Handbook*.

B15. What are OTC drugs?

OTC stands for “over-the-counter.” HAP CareSource MI Health Link covers some OTC drugs when they are written as prescriptions by your provider.

You can read the HAP CareSource MI Health Link *Drug List* to find out what OTC drugs are covered.

B16. Does HAP CareSource MI Health Link cover non-drug OTC products?

HAP CareSource MI Health Link covers some non-drug OTC products when they are written as prescriptions by your provider.

Examples of non-drug OTC products include vitamin d2 oral capsule 1,250 mcg (50,000 unit) and folic acid 1 mg tablet.

You can read the HAP CareSource MI Health Link *Drug List* to find out what non-drug OTC products are covered.

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. **For more information**, visit **HAPCareSource.com**.

B17. What is my copay?

As a HAP CareSource MI Health Link member, you have no copays for prescription and OTC drugs as long as you follow HAP CareSource MI Health Link's rules.

B18. What are drug tiers?

Tiers are groups of drugs.

Every drug on the plan's Drug List is in one of two tiers. A tier is a group of drugs of generally the same type (for example, brand name, generic, or over-the counter drugs).

- Tier 1 includes mostly generic drugs, some brand drugs (lower tier).
- Tier 2 includes mostly brand drugs, some generic drugs (higher tier).

An OTC drug may fall into Tier 1 or Tier 2. There is no copay for drugs in Tier 1 or Tier 2.

C. Overview of the List of Covered Drugs

The following list of covered drugs gives you information about the drugs covered by HAP CareSource MI Health Link. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins on page 130. The index alphabetically lists all drugs covered by HAP CareSource MI Health Link.

The first column of the chart lists the name of the drug. Brand name drugs are capitalized (e.g., ELIQUIS), and generic drugs are listed in lower-case italics (e.g., *lisinopril*)).

The information in the necessary actions, restrictions, or limits on use column tells you if HAP CareSource MI Health Link has any rules for covering your drug.

Note: The word “ADD” next to a drug means the drug is not a “Part D drug.”

- These drugs have different rules for appeals. An appeal is a formal way of asking us to review a coverage decision and to change it if you think we made a mistake. For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or Michigan Medicaid.
- If you or your prescriber disagrees with our decision, you can appeal. To ask for instructions on how to appeal, call Member Services at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. You can also read Chapter 9 Section E3, *Non-Part D drugs*, and Section F5, *Part D drugs*, in the *Member Handbook* to learn how to appeal a decision.

C1. Drugs Grouped by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, CARDIOVASCULAR, HYPERTENSION/LIPIDS. That is where you will find drugs that treat heart conditions.

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. For more information, visit HAPCareSource.com.

Below is a list of abbreviations that may appear on the following pages in the Requirements/Limits column that tells you if there are any special requirements for coverage of your drug.

List of Abbreviations

ADD: Non-Part D drugs or OTC items that are covered by Medicaid only. ‘The amount you pay when you fill a prescription for this drug does not count towards your total drug costs’ (that is, the amount you pay does not help you qualify for catastrophic coverage).

B/D PA: This prescription drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

LA: Limited availability. This prescription may be available only at certain pharmacies. For more information, please call Customer Service.

MO: Mail-Order Drug. This prescription drug is available through our mail-order service, as well as through our retail network pharmacies. Consider using mail order for your long-term (maintenance) medications (such as high blood pressure medications). Retail network pharmacies may be more appropriate for short-term prescriptions (such as antibiotics).

NDS: NDS indicates that the drug is limited to 30 days' supply at retail or mail-order.

PA: Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

V: This vaccine is provided to adults at no cost when used based on recommendations by the Centers for Disease Control and Prevention’s (CDC Advisory Committee on Immunization Practices (ACIP).

If you have questions, please call HAP CareSource MI Health Link at **1-833-230-2057 (TTY: 1-833-711-4711 or 711)**, 8 a.m. to 8 p.m. Monday through Friday. The call is free. For more information, visit **HAPCareSource.com**.

Notice of Non-Discrimination

HAP CareSource complies with applicable state and federal civil rights laws. We do not discriminate, exclude people, or treat them differently because of age, gender, gender identity, color, race, disability, national origin, ethnicity, marital status, sexual preference, sexual orientation, religious affiliation, health status, or public assistance status. HAP CareSource offers free aids and services to people with disabilities or those whose primary language is not English. We can get sign language interpreters or interpreters in other languages so they can communicate effectively with us or their providers. Printed materials are also available in large print, braille or audio at no charge. Please call Member Services at the number on your HAP CareSource ID card if you need any of these services. If you believe we have not provided these services to you or discriminated in another way, you may file a grievance.
