Long-Term Care Pharmacies/ Farmacias para atención a largo plazo

Note: Due to State Law and Medicaid requirements, members must have a referral from their healthcare provider (physician, nurse practitioner, or physician assistant) before a pharmacist may provide drug therapy management services. The pharmacist must also have an active consulting agreement with the member's healthcare provider before services may be rendered.

Nota: Debido a los requisitos de la ley estatal y Medicaid, los miembros deben tener una derivación de su proveedor de atención médica (médico, enfermero o asistente médico) antes de que un farmacéutico pueda proporcionar servicios de manejo de terapia farmacológica. El farmacéutico también debe tener un acuerdo de consultoría activo con el proveedor de atención médica del miembro antes de que los servicios puedan ser prestados.

Residents of a long-term care facility, such as a nursing home, may access their prescription drugs covered under CareSource MyCare Ohio through the facility's pharmacy or another network pharmacy. To learn more about drug coverage in special cases, see Chapter 5 of the Member Handbook, Getting your outpatient prescription drugs through the plan.

Los residentes de un centro de atención a largo plazo, como un asilo, pueden acceder a sus medicamentos recetados cubiertos bajo CareSource MyCare Ohio a través de la farmacia del centro u otra farmacia de la red. Para obtener más información sobre la cobertura de medicamentos en casos especiales, consulte el Capítulo 5 del Manual del Afiliado, Cómo obtener sus medicamentos de venta con receta para paciente ambulatorio a través del plan.
