Date: December 5, 2014

Number: KY-P-2014-17

To: Participating Chiropractors

From: Humana – CareSource®

Subject: Chiropractic Claim Coding and Medical Necessity

In order to reduce rejected claims for your office and patients, Humana – CareSource encourages clinicians offering chiropractic services to review the Centers for Medicare & Medicaid Services' (CMS) bulletin regarding local coverage determination for chiropractic services (L31862).

This resource provides important information about:

- Coverage, including the use of modifiers.
- Coding, including primary and secondary ICD-9 codes that support medical necessity coding.

You can find LCD: Chiropractic Services L31862 on the CMS website [here](#). Please note: You must accept the terms of use license agreement for the site before you can access the LCD information.

If you need assistance with claims issues or have questions, please [contact your provider relations representative](#).
