Professional, Outpatient and Institutional Providers that bill for child birth delivery

> **Description**

ICD-10 has new diagnosis codes available that indicate the weeks of gestation of pregnancy. ODM will require that all claims for a delivery procedure (mother’s claim, not child’s claim) with a date of service (outpatient and professional) or date of discharge (institutional) on or after October 1, 2015 contain the weeks of gestation ICD-10 diagnosis code. This billing requirement will be effective with the ICD-10 compliance date of 10/1/15. To clarify this requirement ODM is providing the following *ICD-10 TIPS*.

The following table displays the ICD-10 diagnosis codes that must be present with a delivery procedure code beginning 10/1/15. To allow providers six months to adjust to this ICD-10 billing requirement, the system logic to enforce this billing guidance will be set to post and pay starting 10/1/15, and then set to deny for dates of service (outpatient and professional) or dates of discharge (institutional) on or after 4/1/16.
