

NETWORK *Notification*

Notice Date: September 2, 2024
To: Indiana Medicaid Providers
From: CareSource
Subject: Reminder - Continuous Glucose Monitors (CGMs) Billing
Effective Date: June 1, 2024

Summary

As a reminder, effective June 1, 2024, certain CGM products are only available through a contracted network pharmacy. For your patients to receive CGM supplies, you need to write a prescription. The participating network pharmacy of your patients' choice then submits a claim as a pharmacy benefit.

For patients receiving CGM supplies from a non-network pharmacy, an authorization for them to continue receiving CGM supplies from a non-pharmacy provider is effective through July 15, 2024. Non-pharmacy providers include home, medical and durable medical equipment (DME) suppliers.

Failure to bill CGMs as a contracted network pharmacy could result in denied claims or claims payment. The [original network notification](#) was posted April 1, 2024.

CareSource follows the State of Indiana's Preferred Diabetic Supply List (PDSL), which includes CGMs. The current PDSL is below. Dexcom G6 and G7 are the preferred CGMs for Indiana Medicaid and **no longer require a prior authorization** when billed through the pharmacy benefit by a network pharmacy provider. All other CGMs require prior authorization.

PREFERRED DIABETES SUPPLY LIST (PDSL)
