

# NETWORK *Notification*

**Notice Date:** September 6, 2024  
**To:** Indiana Medicaid and Marketplace Providers  
**From:** CareSource  
**Subject:** Medication-Assisted Treatment Programs Survey

---

## Summary

Medication-assisted Treatment (MAT) programs are covered for CareSource members. Section 1262 of the Consolidated Appropriations Act, 2023 removes the federal requirement for practitioners to have an "X" waiver to prescribe buprenorphine.

## Impact

All practitioners who have a current Drug Enforcement Administration (DEA) registration that includes Schedule III authority, may now prescribe. MAT services should be provided as a component of a comprehensive treatment plan intended to help members who are suffering from an opioid use disorder (OUD).

CareSource is looking to capture if you are providing these MAT services to our CareSource members. We would appreciate if you could complete this brief [survey](#) to attest if you are/are not.

**Please note:** You will need your taxpayer identification number (TIN) national provider identifiers (NPI) to complete this survey.

## Questions

For questions, please reach out to a member of our Behavioral Health team. Access our [Behavioral Health – Health Partners](#) map for your region's Health Partner's contact information..
