

Qualified Health Plans offered in North Carolina by CareSource North Carolina Co., d/b/a CareSource

ADMINISTRATIVE POLICY STATEMENT	
North Carolina Marketplace	
Policy Name & Number	Date Effective
Against Medical Advice-NC MP-AD-1287	07/01/2024
Policy Type	
ADMINISTRATIVE	

Administrative Policy Statement prepared by CareSource and its affiliates are derived from literature based on and supported by clinical guidelines, nationally recognized utilization and technology assessment guidelines, other medical management industry standards, and published MCO clinical policy guidelines. Medically necessary services include, but are not limited to, those health care services or supplies that are proper and necessary for the diagnosis or treatment of disease, illness, or injury and without which the patient can be expected to suffer prolonged, increased or new morbidity, impairment of function, dysfunction of a body organ or part, or significant pain and discomfort. These services meet the standards of good medical practice in the local area, are the lowest cost alternative, and are not provided mainly for the convenience of the member or provider. Medically necessary services also include those services defined in any Evidence of Coverage documents, Medical Policy Statements, Provider Manuals, Member Handbooks, and/or other policies and procedures.

Administrative Policy Statements prepared by CareSource and its affiliates do not ensure an authorization or payment of services. Please refer to the plan contract (often referred to as the Evidence of Coverage) for the service(s) referenced in the Administrative Policy Statement. If there is a conflict between the Administrative Policy Statement and the plan contract (i.e., Evidence of Coverage), then the plan contract (i.e., Evidence of Coverage) will be the controlling document used to make the determination.

According to the rules of Mental Health Parity Addiction Equity Act (MHPAEA), coverage for the diagnosis and treatment of a behavioral health disorder will not be subject to any limitations that are less favorable than the limitations that apply to medical conditions as covered under this policy.

A. Subject

Against Medical Advice

B. Background

Studies show that approximately 1-2% of all hospitalizations result in discharge against medical advice (AMA). Discharges AMA are at higher risk for inadequately treated medical conditions, readmissions, and negative health outcomes when compared to planned discharges. Documented reasons for leaving AMA may include lack of satisfaction with the treatment team, team members, or facility, a general mistrust of medical systems, underutilization of social support, and/or a lack of health insurance or low socio-economic status. Additionally, research indicates that some previously diagnosed conditions substantially impact rates of AMA discharge. Patients with psychiatric conditions, substance abuse disorders, and human immunodeficiency virus are at the most significant risk for an AMA discharge.

C. Definitions

- **Against Medical Advice (AMA)** – A member chooses to leave the hospital or acute care setting before a practitioner writes the order for discharge. Also known as self-directed discharge.

D. Policy

- I. CareSource will only pay for services, procedures, and supplies rendered.
- II. The discharge status code on the submitted claim must indicate that the member left AMA.
- III. If a member leaves AMA in the emergency department and the facility has submitted a medical necessity review for inpatient services, only services rendered as a part of the emergency department visit will be considered for payment.
- IV. Claims are subject to retrospective review, and CareSource reserves the right to adjust reimbursement in accordance with the policies above.

E. Conditions of Coverage

Member must be eligible at the time the service, procedure, or supply was provided, and the service, procedure, or supply must be a covered benefit. Reimbursement is dependent on, but not limited to, submitting approved HCPCS and CPT codes along with appropriate modifiers, if applicable. Medical necessity reviews do not guarantee reimbursement. All services, procedures, and supplies are subject to review for medical necessity.

F. Related Policies/Rules

Medical Necessity Determinations

G. Review/Revision History

DATE		ACTION
Date Issued	10/12/2022	New policy.
Date Revised	03/27/2024	Annual review: removed (AMA) from title, revised background, added to AMA definition, revised conditions of coverage, and updated references. Approved at Committee.
Date Effective	07/01/2024	
Date Archived
