

## PHARMACY POLICY STATEMENT

### Common Ground Healthcare Cooperative (CGHC)

<b>DRUG NAME</b>	<b>Tezspire (tezepelumab-eeko)</b>
BENEFIT TYPE	Medical or Pharmacy
STATUS	Prior Authorization Required

Tezspire (tezepelumab-eeko) is a thymic stromal lymphopoietin (TSLP) blocker, human monoclonal antibody approved in 2021 for the add-on maintenance treatment of severe asthma. Tezspire is the first monoclonal antibody to act on TSLP. Blocking TSLP with tezepelumab-ekko reduces biomarkers and cytokines associated with inflammation including blood eosinophils, airway submucosal eosinophils, IgE, FeNO, IL-5, and IL-13; however, the mechanism of tezepelumab-ekko action in asthma has not been definitively established.

Tezspire (tezepelumab-eeko) will be considered for coverage when the following criteria are met:

#### Asthma

For **initial** authorization:

1. Member is at least 12 years of age; AND
2. Medication must be prescribed by or in consultation with an allergist, immunologist, or pulmonologist; AND
3. Member has diagnosis of severe asthma; AND
4. Member has at least two documented severe asthma exacerbations requiring corticosteroids or at least one requiring hospitalization, within the last year; AND
5. Member's asthma has been inadequately controlled after 3 months of conventional treatment on medium to high doses of inhaled corticosteroids (ICS) and long-acting beta 2-agonists (LABA); AND
6. Medication is being used as add-on maintenance treatment to conventional therapies for asthma (i.e. ICS, LABA, etc.); AND
7. Medication is not used in conjunction with any other biologic therapy for asthma; AND
8. **Dosage allowed/Quantity limit:** 210 mg (1 vial, syringe or pen) every 28 days. Quantity Limit: 1 vial, syringe or pen per 28 days.

***If all the above requirements are met, the medication will be approved for 6 months.***

For **reauthorization**:

1. Chart notes have been provided that show the member has demonstrated improvement (i.e. increased FEV<sub>1</sub>, decreased rate of exacerbations or decreased utilization of oral corticosteroids, etc.).

***If all the above requirements are met, the medication will be approved for an additional 12 months.***

**Common Ground Healthcare Cooperative (CGHC) considers Tezspire (tezepelumab-eeko) not medically necessary for the treatment of conditions**

**that are not listed in this document. For any other indication, please refer to the Off-Label policy.**

DATE	ACTION/DESCRIPTION
<b>02/1/2022</b>	New policy for Tezspire created.
<b>07/06/2022</b>	Added permanent J code.
<b>3/13/2023</b>	Updated references. Added pharmacy benefit option and pen dosage form. Added quantity limit. Simplified reauthorization criteria. Added mechanism of action to the background information.
