

Humana-CareSource Commonwealth of Kentucky Medicaid

*Por favor, consulte las páginas 5 a 8 para ver la versión en español.

10/01/2019

INTRODUCTION

We are pleased to provide the 2019 **Humana - CareSource Medicaid Formulary** as a useful reference and informational tool. This document can assist medical providers in selecting clinically-appropriate and cost-effective products for their patients. While all Kentucky Medicaid drugs are covered by CareSource, this is a list of preferred medications.

The drugs represented have been reviewed by a National Pharmacy and Therapeutics (P&T) Committee and then approved by a local Pharmacy, Therapeutics and Technology (PT&T) Committee for inclusion. The document is reflective of current medical practice as of the date of review.

The information contained in this document and its appendices is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. This document is not intended to be a substitute for the knowledge, expertise, skill and judgment of the medical provider in his or her choice of prescription drugs. All the information in the document is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber.

The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

National guidelines can be found on the National Guideline Clearinghouse site at <http://www.guideline.gov>, on the websites listed under each therapeutic class and on the sites listed in the WEBSITES section of this publication.

PREFACE

The document is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action. Products are listed by generic name with brand name for reference only. Unless the cited drug is available as an injectable or an exception is specifically noted, generally, all applicable dosage forms and strengths of the drug cited are included in the document.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The services of an independent National Pharmacy and Therapeutics (P&T) Committee are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an external advisory body of experts from across the United States. The P&T Committee's voting members include physicians, pharmacists, a pharmacoeconomist and a medical ethicist, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Employees with significant clinical expertise are invited to meet with the P&T Committee, but no employee may vote on issues before the P&T Committee. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

In addition to the National P&T Committee review, the CareSource Pharmacy Therapeutics and Technology (PT&T) Committee makes formulary recommendations based upon the needs of regional member demographics. The

CareSource PT&T Committee is comprised of the Plan's Medical Directors, Pharmacy staff and representatives from the medical community.

DRUG LIST PRODUCT DESCRIPTIONS

To assist in understanding which specific strengths and dosage forms on the document are covered, examples are noted below. The general principles shown in the examples can usually be extended to other entries in the document. Any exceptions are noted.

Listed products on the document generally include all strengths and dosage forms of the cited brand-name product.

pregabalin

Lyrica

Oral capsules, oral solution and all strengths of Lyrica would be included in this listing.

When a strength, dosage or different formulation is specified, only that specific strength, dosage or formulation may be covered. Other strengths/dosage/formulations, including injectable dosage forms of the reference product, are not covered.

colestipol tabs

Colestid

The generic-name oral tablet formulation is on the document. From this entry, the oral packets and granules cannot be assumed to be on the list unless there is a separate entry.

Extended-release and delayed-release products require their own entry.

metformin

Glucophage

The immediate-release product listing of Glucophage alone would not include the extended-release product Glucophage XR.

metformin ext-rel

Glucophage XR

A separate entry for Glucophage XR confirms that the extended-release product is on the document.

Dosage forms on the document will be consistent with the category and use where listed.

neomycin/polymyxin B/hydrocortisone

Cortisporin

Since Cortisporin is listed only in the OTIC section, it is limited to the otic solution and suspension. From this entry the topical cream cannot be assumed to be on the list unless there is an entry for this product in the DERMATOLOGY section of the document.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product. **Boldface type** indicates generic availability. However, not all strengths or dosage forms of the generic name in boldface type may be generically available. In most instances, a brand-name drug for which a generic product becomes available will become

non-formulary, with the generic product covered in its place, upon release of the generic product onto the market. However, the document is subject to state specific regulations and rules regarding generic substitution and mandatory generic rules apply where appropriate.

Generic drugs are usually priced lower than their brand-name equivalents and should be considered the first line of prescribing subject to applicable rules. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness, and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug (bioequivalence). Generics may be different from the brand in size, color and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug (therapeutic equivalence).

PLAN DESIGN

The document represents a closed formulary plan design. The medications listed on the document are covered by the plan as represented. Certain medications on the list are covered if utilization management criteria are met (i.e. Step Therapy, Prior Authorization, Quantity Limits, etc); requests for use of such medications outside of their listed criteria will be reviewed for medical necessity. If a medication is not listed on the document, a formulary exception may be requested for coverage. Medical necessity or formulary exception requests will be reviewed based on drug-specific prior authorization criteria or standard non-formulary prescription request criteria.

LEGEND

AL	Age Limit
OTC	Over the counter
PA	Prior Authorization; Prior Authorization includes but is not limited to therapeutic interchange
QL	Quantity Limit
SP	Specialty Drug
ST	Step Therapy
boldface	Indicates generic availability; boldface may not apply to every strength or dosage form under the listed generic name
delayed-rel	Delayed-release (also known as enteric-coated), refer to the reference brand listed for clarification
ext-rel	Extended-release (also known as sustained-release), refer to the reference brand listed for clarification

INTRODUCCIÓN

Nos complace proporcionarle el **Formulario Humana - CareSource Medicaid** 2019 a modo de referencia y herramienta de información útil. Este documento puede ayudar a los proveedores médicos a elegir productos clínicamente apropiados y económicos para sus pacientes. Si bien todos los medicamentos de Medicaid de Kentucky están cubiertos por CareSource, esta es una lista de los medicamentos preferidos.

Los medicamentos representados han sido revisados por un Comité Nacional de Farmacia y Terapéutica (Pharmacy and Therapeutics, P&T) y luego aprobados por un Comité de Farmacia, Terapéutica y Tecnología (Pharmacy, Therapeutics and Technology, PT&T) local para su inclusión. El documento refleja la práctica médica actual a partir de la fecha de revisión.

La información que contiene este documento y sus anexos se proporciona únicamente para conveniencia de los proveedores médicos. No garantizamos ni aseguramos la precisión de tal información ni pretende ser de carácter exhaustivo. Este documento no pretende ser un sustituto de los conocimientos, la experiencia, la habilidad y el criterio del proveedor médico en cuanto a su elección de medicamentos de venta con receta. Toda la información que se incluye en el documento se proporciona como referencia para la selección de la terapia farmacológica. La selección de medicamentos específicos para un paciente en particular depende exclusivamente de quien la prescribe.

El documento queda sujeto a reglamentos y normas estatales específicos; incluso, entre otros, aquellos en relación con la sustitución mediante genéricos, programas de sustancias controladas, preferencia de marcas y genéricos obligatorios, siempre que corresponda.

No asumimos responsabilidad alguna por las acciones u omisiones de cualquier proveedor médico que se basen, en parte o en su totalidad, en la información que aquí se incluye. El proveedor médico debe consultar las publicaciones sobre el producto del fabricante de medicamentos o las referencias estándar para obtener información más detallada.

Las directrices nacionales se pueden encontrar en el sitio web de National Guideline Clearinghouse (Repositorio de Directrices Nacionales) <http://www.guideline.gov>, en los sitios web que figuran para cada clase terapéutica y en los sitios que se mencionan en la sección de SITIOS WEB de esta publicación.

PREFACIO

El documento se organiza por secciones. Cada sección se divide por clase de medicamento terapéutico, principalmente definido por mecanismo o acción. Los productos se enumeran por nombre genérico, con el nombre de marca solo a modo de referencia. A menos que el medicamento mencionado esté disponible como inyectable o se cite una excepción de un modo específico, se incluyen en este documento todas las formas de dosificación y concentraciones del medicamento.

COMITÉ DE FARMACIA Y TERAPÉUTICA (P&T)

Los servicios de un Comité Nacional de Farmacia y Terapéutica (P&T) independiente se usan para aprobar las terapias con medicamentos seguros y clínicamente efectivos. El Comité de P&T es un organismo consultor externo de expertos de todo Estados Unidos. Entre los miembros votantes del Comité de P&T se incluyen médicos, farmacéuticos, un farmacoeconomista y un experto en ética médica, todos con amplios antecedentes de experiencia clínica y académica respecto de los medicamentos de venta con receta. Se invita a los empleados con experiencia clínica significativa a reunirse con el Comité de P&T; sin embargo ningún empleado puede votar sobre los temas ante el Comité de P&T. Los miembros del Comité de P&T que votan deben dar a conocer cualquier relación financiera o conflicto de intereses con los fabricantes farmacéuticos.

Además de la revisión del Comité Nacional de P&T, el Comité de Farmacia, Terapéutica y Tecnología (PT&T) de CareSource hace recomendaciones de formulario de acuerdo con las necesidades demográficas de los afiliados regionales. El Comité de PT&T de CareSource está integrado por directores del plan médico, personal de farmacia y representantes de la comunidad médica.

DESCRIPCIONES DE LOS PRODUCTOS DE LA LISTA DE MEDICAMENTOS

Para ayudar a comprender qué concentraciones específicas y formas de dosificación que menciona el documento están cubiertas, se brindan ejemplos a continuación. Los principios generales que se mencionan en los ejemplos, por lo general se pueden extender a otras entradas en el documento. Se informa sobre cualquier excepción.

Los productos que se mencionan en el documento incluyen, generalmente, todas las concentraciones y formas de dosificación del producto de la marca citada.

pregabalina

Lyrica

Las cápsulas orales, la solución oral y todas las concentraciones de Lyrica formarán parte de esta lista.

Cuando se especifique una concentración, dosificación o formulación diferente, solo se cubrirá dicha concentración, dosis o formulación. No se cubren otras concentraciones/dosificación/formulaciones, incluso formas de dosis inyectables del producto de referencia.

colestipol en comprimidos

Colestid

La formulación de los comprimidos orales de nombre genérico se encuentra en el documento. A partir de esta entrada, no se puede asumir que los paquetes orales y los gránulos se incluyen en la lista, a menos que exista una entrada por separado.

Los productos de liberación prolongada y de liberación retardada requieren su propia entrada.

metformina

Glucophage

El hecho de que el producto de liberación inmediata Glucophage figure en la lista por sí solo, no incluirá el producto de liberación prolongada Glucophage XR.

metformina ext-rel

Glucophage XR

Una entrada separada para Glucophage XR confirma que el producto de liberación prolongada figura en el documento.

Las formas de dosificación que figuran en el documento serán consistentes con la categoría y el uso cuando se mencionen.

*neomicina/polimixina
B/hidrocortisona*

Cortisporin

Dado que Cortisporin figura solo en la sección ÓTICO, se limita a la solución ótica y a la suspensión. A partir de esta entrada no se puede dar por sentado que la crema tópica se incluye en la lista, a menos que exista una entrada de este producto en la sección de DERMATOLOGÍA del documento.

SUSTITUCIÓN POR GENÉRICO

La sustitución por medicamento genérico es una acción de la farmacia en la que se dispensa una versión genérica en lugar de un producto de marca recetado. **Lo que figura en negrita** indica la disponibilidad de genéricos. Sin embargo, no todas las concentraciones o las formas de dosificación del nombre genérico en negrita pueden estar disponibles como genéricos. En la mayoría de los casos, un medicamento de marca, para el que se encuentra disponible un producto genérico, queda fuera del formulario y el producto genérico pasa a estar cubierto en su lugar, una vez que el producto genérico sale al mercado. Sin embargo, el documento está sujeto a reglamentos y normas estatales específicos sobre la sustitución por medicamento genérico y las normas genéricas obligatorias se aplican donde sea pertinente.

Los medicamentos genéricos por lo general tienen un precio menor que los equivalentes de marca y se deben considerar de primera línea al prescribir la receta, de conformidad con las normas vigentes. Los medicamentos genéricos de venta con receta están:

- Aprobados por la Administración de Alimentos y Medicamentos de EE. UU. (U.S. Food and Drug Administration) en cuanto a la seguridad y efectividad y se fabrican conforme a las mismas normas estrictas que se aplican a los medicamentos de marca.
- Probados en humanos, para garantizar que el medicamento genérico se absorbe en el torrente sanguíneo en una tasa y un grado similares, en comparación con el medicamento de marca (bioequivalencia). Los medicamentos genéricos pueden ser diferentes a los medicamentos de marca en cuanto al tamaño, el color y los ingredientes inactivos, pero esto no altera la efectividad ni la capacidad de que se absorban igual que los medicamentos de marca.
- Elaborados con la misma forma de concentración y dosificación que los medicamentos de marca.

Cuando un medicamento genérico se sustituye por un medicamento de marca, puede esperar que el genérico tenga el mismo perfil de seguridad y efecto clínico que el medicamento de marca (equivalencia terapéutica).

DISEÑO DEL PLAN

El documento representa un diseño cerrado de plan del Formulario. Los medicamentos que aparecen en el documento están cubiertos por el plan, según se representan. Determinados medicamentos en la lista están cubiertos si se cumplen los criterios de gestión de uso (p. ej., Terapia escalonada, Autorización previa, Límites de cantidad, etc.); las solicitudes para el uso de estos medicamentos fuera de los criterios mencionados se revisarán para determinar la necesidad médica. Si un medicamento no figura en el documento, puede solicitar una excepción al formulario para la cobertura. La necesidad médica o la excepción al formulario se revisarán basándose en los criterios de autorización previa específicos del medicamento o en los criterios estándar de solicitud de prescripción de medicamentos fuera de formulario.

LEYENDA

AL	Límite de edad
OTC	De venta libre
AP	Autorización previa; la autorización previa incluye, entre otras, un intercambio terapéutico
QL	Límite de cantidad
SP	Medicamentos de especialidad
TP	Terapia escalonada
Negrita	Indica la disponibilidad de genéricos; es posible que la negrita no se aplique a cada concentración o forma de dosificación bajo el nombre genérico de la lista
delayed-rel	Liberación retardada (también conocido como tableta con recubrimiento entérico), consulte la marca de referencia que figura como aclaración

ext-rel

Liberación prolongada (también conocida como liberación sostenida),
consulte la marca de referencia que figura como aclaración

AVISO

La información que contiene este documento es de propiedad exclusiva. La información no se puede copiar en su totalidad o en parte sin una autorización por escrito. ©2018. Todos los derechos reservados.

Este documento contiene referencias a los medicamentos con receta de marca que son marcas registradas o marcas registradas de fabricantes farmacéuticos.

VIETNAMESE

Nếu bạn hoặc ai đó bạn đang giúp đỡ, có thắc mắc về Humana – CareSource, bạn có quyền được nhận trợ giúp và thông tin bằng ngôn ngữ của mình miễn phí. Để nói chuyện với một thông dịch viên. Vui lòng gọi số dịch vụ thành viên trên thẻ ID thành viên của bạn.

Humana – CareSource complies with applicable state and federal civil rights laws and does not discriminate on the basis of age, gender, gender identity, color, race, disability, national origin, marital status, sexual preference, religious affiliation, health status, or public assistance status. Humana – CareSource does not exclude people or treat them differently because of age, gender, gender identity, color, race, disability, national origin, marital status, sexual preference, religious affiliation, health status, or public assistance status.

Humana – CareSource provides free aids and services to people with disabilities to communicate effectively with us, such as: (1) qualified sign language interpreters, and (2) written information in other formats (large print, audio, accessible electronic formats, other formats). In addition, Humana – CareSource provides free language services to people whose primary language is not English, such as: (1) qualified interpreters, and (2) information written in other languages. If you need these services, please call the member services number on your member ID card.

If you believe that Humana – CareSource has failed to provide the above mentioned services to you or discriminated in another way on the basis of age, gender, gender identity, color, race, disability, national origin, marital status, sexual preference, religious affiliation, health status, or public assistance status, you may file a grievance, with:

Humana – CareSource
Attn: Civil Rights Coordinator
P.O. Box 1947, Dayton, Ohio 45401
1-844-539-1732, TTY: 711
Fax: 1-844-417-6254

CivilRightsCoordinator@CareSource.com

You can file a grievance by mail, fax, or email. If you need help filing a grievance, the Civil Rights Coordinator is available to help you.

You may also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office of Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services
