

NETWORK Notification

Notice Date: August 30, 2024
To: Michigan Medicaid Providers
From: HAP CareSource™
Subject: HIV Resources

Summary

HAP CareSource is providing resources to enhance health care provider understanding of prevention and treatment of human immunodeficiency virus (HIV).

Importance

To educate, inform and increase your awareness of HIV prevention and treatment, please register on the Centers for Disease Control and Prevention (CDC) National Provider Information Network (NPIN) website. NPIN is a web-based information and resource platform connecting public health partners through collaborative communication and innovative technology solutions for HIV, viral hepatitis, sexually transmitted diseases (STDs), tuberculosis, and adolescent and school health. NPIN maintains a searchable database of information submitted to the CDC NPIN by the testing center or provider organization. Information entered into the NPIN database powers tools such as the [GetTested](#) testing locator utility and the [PrEP Locator](#) tool.

HAP CareSource has procured a list of resources and created an HIV Toolkit on [HAPCareSource.com](#) > Education > [Patient Care](#) for easy reference. Below is a list of local/national resources for treatment recommendations, guidelines for testing and prevention.

HIV, STD, and Viral Hepatitis Testing and Vaccines	https://gettested.cdc.gov/
PrEP Resource List	PrEP Resources
Henry Ford Health Consultation Program	https://www.henryford.com/hcp/academic/medicine/divisions/id/hiv-consult
HIV Consultant Program: Free 24/7 clinical consultation with HIV experts	313-575-0332
