

2021 WEBINAR SCHEDULE

Learn More About:

Risk Adjustment Documentation and Coding

TO REGISTER:

Visit <https://pulse8.zoom.us/>.
For questions please email us at
ProviderEngagement@Pulse8.com.

Each webinar includes a high-level overview of Risk Adjustment (RA), Hierarchical Condition Categories (HCCs), and the role of the Provider and Support Personnel.

JANUARY	
26	& 28
8:30am 12:30pm	8:30am 12:30pm

Recipe for Success: The Essential Ingredients of Risk Adjustment

Join us to discover the key elements of risk adjustment coding and accurate documentation and its impact on both the healthcare system and patient outcomes with the rise of value-based care. Check out a full menu of tools and tips to help you care for the whole patient while being sensitive to your billing requirements and optimizing reimbursement for your valuable time.

JULY	
27	& 29
8:30am 12:30pm	8:30am 12:30pm

Screening In-Sight: Proper Coding for Diabetic Conditions

Expand your knowledge to successfully document and code conditions for Diabetes Mellitus and the associated manifestations and complications that accompany it. Gain a magnified look into Ophthalmic complications associated to the manifestations of Diabetes such as Retinopathy, Blindness, and Glaucoma.

FEBRUARY	
23	& 25
8:30am 12:30pm	8:30am 12:30pm

Winds of Change: Adapting to the New 2021 Outpatient Compensation Models

New 2021 Evaluation and Management codes – which have not had substantial changes since 1992 – bring higher outpatient reimbursement this year. Explore the complex rules and changes to coding and documentation for E&M visits, Annual Wellness visits, the utilization of telehealth.

AUGUST	
24	& 26
8:30am 12:30pm	8:30am 12:30pm

Be Mindful: In-Depth Coding for Behavioral Health & Substance Use Disorders

Open your mind to specific documentation and coding of Major Depressive Disorders, Schizophrenia, and Bipolar Disorders. Recognize patterns that cause significant distress or impairment of personal functioning and discern the connection between behavioral health and substance use.

MARCH	
23	& 25
8:30am 12:30pm	8:30am 12:30pm

Ready to Attack: How to Properly Document & Code for Autoimmune Disorders

Join us as we explore the complex world of Autoimmune Disorders such as Rheumatoid arthritis, Psoriasis, Multiple Sclerosis, and more. Arm yourselves with the information needed to defend your reimbursement amounts while protecting patient outcomes and correctly documenting and coding all conditions to the highest level of specificity.

SEPTEMBER	
28	& 30
8:30am 12:30pm	8:30am 12:30pm

Playing the Cardiac Quarterback: Coding for Cardiovascular Conditions

Discover the winning moves on how to correctly document and code for the most prevalent Cardiovascular diseases including Coronary Artery Disease, Hypertension, Heart failure, Heart Attacks, and the many types of arrhythmias including Atrial Fibrillation.

APRIL	
27	& 29
8:30am 12:30pm	8:30am 12:30pm

Can you Stomach it? A Coder's Guide to Disorders of the Gastrointestinal System

Join us as we deliver easy-to-digest details about common gastrointestinal diseases and how to document and code for them. Cover coding for diseases of the GI system, hernias, diseases of the intestines, peritoneum, and retroperitoneum, diseases of the hepatobiliary system as well as coding for associated complications.

OCTOBER	
26	& 28
8:30am 12:30pm	8:30am 12:30pm

Breathe New Life into Proper Documentation & Coding for Diseases of the Respiratory System

Work through some of the most frequently treated diseases of the respiratory system highlighting documentation and coding for Chronic Obstructive Pulmonary Disease, Asthma, Emphysema, Bronchitis, and other common respiratory diseases.

MAY	
25	& 27
8:30am 12:30pm	8:30am 12:30pm

More than Skin-Deep: Effective Identification of Dermatologic Conditions

Peel back the details of the most common skin conditions such as Pressure Ulcers, Non-Pressure Ulcers, Cellulitis, Dermatitis, and various infections involving the epidermis and the dermis. Receive expert guidance on the proper documentation and coding for Dermatologic Conditions as well as diseases involving the skin and subcutaneous tissue.

NOVEMBER	
16	& 18
8:30am 12:30pm	8:30am 12:30pm

Surviving Proper Documentation & Coding for Cancer and Hematologic Conditions

Uncover the skills necessary to overcome the challenges of correctly documenting and coding the most common cancers and hematological conditions. Reveal key techniques to precisely submitting different types of neoplasms, lymphomas, childhood cancers, and hematological disorders.

JUNE	
22	& 24
8:30am 12:30pm	8:30am 12:30pm

The Right Tract: Coding for Genitourinary & Renal Conditions

Learn about specific documentation and coding related to Genitourinary Conditions such as Nephritis, Nephropathy, and infections of the kidneys. Gain insight into proper coding for Chronic Kidney Disease and all the associated stages and complications including End Stage Renal Disease as well as other Genitourinary Diseases.

DECEMBER	
14	& 16
8:30am 12:30pm	8:30am 12:30pm

Wanted: Primary Care Providers Mastering Correct Documentation & Coding

Join Pulse8 for the ultimate course on how to identify, document, and correctly code for the most common risk-adjustable conditions seen by Internal Medicine, Primary Care Clinicians, and their support staff. Learn how to improve capturing your patients' chronic risk-adjustable conditions this year and beyond.
